save energy  
together

Empowering municipalities  
to make energy-saving  
easy and impactful

# What We Offer

## ENERGY SAVINGS

Cost-benefit tool of energy-saving campaigns tailored to the target audience needs.

## EFFECTIVE SUPPORT

Develop effective strategies to inspire behavioural change and energy-savings campaigns.

## CITIZENS ENGAGEMENT

Mobilize local teams, including citizens, to make sustainability a shared goal.

# Let's Build a Better Tomorrow — Together!

## HOW IT WORKS

SaveEnergyTogether equips municipalities with tools to develop and evaluate energy-saving campaigns. Local and regional groups (10 Campaign Implementation Groups) test outreach campaigns, while national teams share strategies and good practices online. Municipalities can use a Cost-Benefit Analysis (CBA) tool to assess and select the most effective solutions for their area.

SaveEnergy**Together** supports cities, villages and people to engage in energy-saving campaigns that require only small investments, reducing costs and CO<sub>2</sub> emissions — creating sustainable, climate-friendly communities. SaveEnergy**Together** partners provide municipalities with tools and strategies to launch effective energy-saving campaigns, empowering households to make simple but impactful changes.
