

Information on voting at the Climate Alliance General Assembly

Please note that the proxy voting form is on page 2.

Who can vote on behalf of your municipality at the General Assembly?

While membership in Climate Alliance is granted to municipalities as a whole, it is up to the municipal administration to decide who will represent each individual Climate Alliance city, town and district in the network and who can vote on the municipality's behalf. Please note that a proxy for the person charged with voting is not needed within the municipal administration itself.

- **Are you representing a member municipality?** Then you are entitled to vote on behalf of your municipality.
- **Will multiple representatives of your municipality attend the General Assembly?** Then only one person is entitled to vote. Please clarify this internally in advance.
- **It is not possible for a representative from your municipality to attend the General Assembly?** Then you can transfer your right to vote to a representative of another member municipality with the following voter proxy form.

Would you like to transfer your right to vote?

In this case, please send us the following form for voting by proxy by **17 September 2026** via email with subject line "Proxy voting" to membership@climatealliance.org or via fax at +49-69-717139-93.

Have questions about voting by proxy? Feel free to contact us via email at membership@climatealliance.org or by telephone at +49 69 71 71 39 0.
